

COUNTRY STAR SDN BHD

ENERGY SAVING SOLUTIONS PROVIDER

Introduction

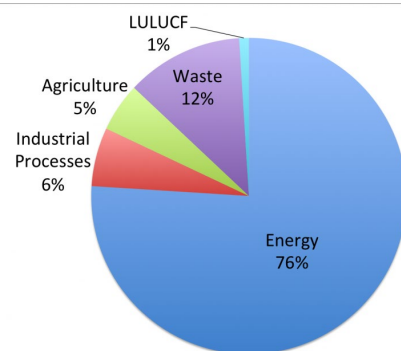

In line with our government's initiatives to promote the use of Clean, Green and Renewable Energy in both the commercial and domestic sectors, Country Star Sdn Bhd (CSSB) has partnered with reputable industry experts to fully support the government's initiatives in promoting the use of clean, green and renewable energy resources with the intent to meet and or exceed our government's commitment to reduce carbon emissions by 45% from the 2005 levels by 2030, in compliance with the 2015 Paris Climate Agreement.

In this regard, CSSB established in Kuala Lumpur, Malaysia in July 1997, has partnered with industry experts from the US, UK, Canada, Germany and Denmark to promote and deploy proprietary solutions to Generate and Store Clean Power using Fuel Cells and Solar PV Systems, to Reduce Natural Gas Consumption in boilers and furnaces using proprietary Neodymium Magnets, to Reduce Water Consumption by incorporating a revolutionary water flow control system in the incoming water pipeline, to reduce GHG Emissions released by boilers, furnaces and turbines by incorporating the latest technology in pollution control using proprietary Electrostatic Precipitator (ESP).

Sources of GHG

The Energy and Manufacturing sectors in Malaysia is responsible for close to 75% of Greenhouse Gas (GHG) emissions and will be the sector that will benefit most when deploying our Energy Saving Solutions. Our energy saving solutions have zero carbon emissions as opposed to coal and natural gas fired boilers, furnaces and turbine generators that are the largest producers of GHG. GHG emissions by industry sectors is provided below for reference only.

GHG emissions by sectors

List of Proprietary Solutions and Services

- 1.0 Fuel Cell Generators powered by Hydrogen, Methanol and Biogas
- 2.0 Solar Powered Air Conditioners
- 3.0 Solar PV Systems for Homes and Businesses
- 4.0 Battery Energy Storage Systems for Homes and Businesses
- 5.0 Peak Power Reducing Solutions for big power users
- 6.0 Chiller and Air Conditioning Power Saving Solutions
- 7.0 Natural Gas Consumption Saving Solution for Industry
- 8.0 Battery Backup Power System for Homes and Businesses
- 9.0 Water consumption Saving Solution for Homes and Businesses
- 10.0 GHG Emission Reduction for Industries
